Client: Hello Data scientist I need your help.

Data Scientist: Yes sure, please describe your problem.

Client: I 'am working in Infosys limited at Bangalore branch and live in Electronic city. Recently I have transferred to Mumbai branch which is located at south- Mumbai. As I've never been to Mumbai I 'am not sure where I 'am going to stay and how much will cost for buying 1BHK flat. I 'am confused.

Data Scientist: I will help you in this problem. I can compare Electronic city with neighborhood of south Mumbai and can give you best suggestion for which neighborhood to choose to stay as it would give similar experience compared to electronic city.

Client: Ok, but that neighborhood should include Gym and Veg- Restaurant.

Data Scientist: Ok.

Interest

My client is interested to know about South-Mumbai neighborhood, like how much will be the accommodation cost in each neighborhood of south Mumbai and also how similar it is when compared to Electronic city. He also wanted to know whether the neighborhood which he is moving into has Gym and Veg Restaurants.
